Cooper Antennas Ltd is a UK company that brings together an exceptional team of internationally respected professionals with a combined experience of over 100 years in the design, development and manufacture of standard and custom antennas for predominately the Aerospace and Defence Industry.

Over the years, the management team at Cooper Antennas Ltd has been responsible for providing hundreds of thousands of antennas for the world market.

Cooper Antennas Ltd is lead by Geoff Cooper, former Managing Director and co founder of Chelton (a Cobham plc company) which he developed, through internal growth and acquisition, into one of the largest and most successful Antenna companies in the world. Leaving Chelton after 37 years he formed Cooper Antennas Ltd in 2005 with a senior management team of former colleagues. Collectively the team bring strong contracting, program management and support skills to Governments, OEMs, Integrators and Operators alike.

The Cooper Antennas Ltd team of professionals is dedicated to providing innovative, reliable and designed-to-cost antenna solutions for today's increasingly network enabled defence forces.

Cooper Antennas Ltd is an ISO 9001:2008, AS/EN 9100:2009 and a MAA-DAOS certified company that is listed as an approved supplier to a growing number of major OEM's. During the last few years it has become a significant antenna supplier to the U.S. Air Force, Army and Marine Corps. Cooper Antennas Ltd delivered over 850 conformal VHF/UHF LOS/SATCOM antennas to the USAF for the Lockheed Martin F-16. Other successes include NATO, Canadian and Norwegian competitions for UHF SATCOM On-The-Move Antennas, lo-profile lo-band VHF Antennas for the UK Royal Navy, VOR/ILS Antennas for Mach 2+ aircraft platform and static dischargers for the F-16 and UH-60 platforms.
